## **Biographies**

### **Cecil Kullu**

I am a Consultant Psychiatrist in liaison Psychiatry based at Royal Liverpool University Hospital, Deputy Medical Director for Research, Development and Innovation for Mersey Care NHS Foundation Trust and Chair of the Cheshire and Merseyside clinical senate (NHS England).

I have over 12 years of experience as a consultant psychiatrist working in a range of clinical mental health settings. My research and clinical interests are in the area of interaction between physical illness and mental health conditions, Self Harm, Alcohol Related Brain Damage and Delusional infestation, application and development of technology for use in health care settings. In collaboration with Risk Authority a part of Stanford University I have been involved in quality improvement projects using Design Thinking Methodology. I have been involved in setting up and running of specialist services such the joint assessment clinic with Liverpool School of Tropical Medicine for assessment and treatment of Delusional Infestation and setting up the first service for psychotherapy treatment for self harm for people presenting to the emergency department in Merseyside. I have also collaborated on a number of research projects on use of digital technology in mental health and am currently the Clinical lead for Mersey Care NHS Foundation Trust in the AVERT project which is funded by Innovate UK for use of big data to predict risk of relapse of depression and crisis.
